

Better projects. Better contracts. Brighter future.

View® is a cloud-based marketplace platform for clean energy developers and power producers.

Join View® to connect your solar and storage projects to a larger universe of energy off-takers, landowners, and other key partners.

View® is provided by

hstpowers.com

View[®] Develop

Increase quality and volume of your early-stage development pipeline by streamlining your workflow with View[®]

View[®] is a software platform that accelerates your early-stage clean energy development process.

View[®]'s artificial intelligence and patented algorithms to search through >180 billion project permutations to show you the commercial results of development and origination decisions – and ultimately guide you toward better value PPAs.

- View[®] is backed by DNV Ventures, and offers access to DNV technologies and services.

- Reduce project risk with high-quality input data from DNV's Solar Resource Compass and SolarFarmer, resulting in high-accuracy, pre-bankable outputs.
- Increase your team's efficiency to evaluate sites, find the site configuration with the lowest LCOE, and understand which projects to move forward in your pipeline.
- Rapidly assess your project's commercial feasibility in terms of LCOE, NPV, Off-taker's Settlement, DSCR, and Cash Flow.

Up to

60

basis points gained on return per project

According to an independent evaluation by Itai Suez, former Sr. Solar Engineering Manager at EDP Renewables North America

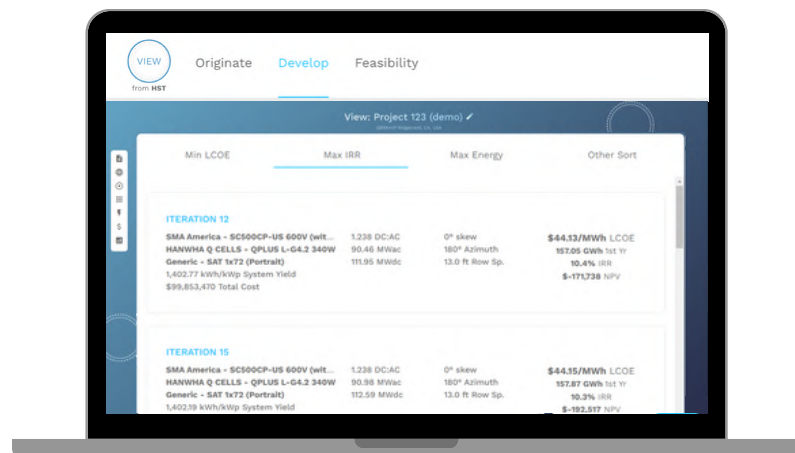

Up to

70%

increase in project volume

According to Marynes Cabrera, Senior Development Engineer at Avangrid Renewables

View[®] Originate

Accelerate deals by listing projects to the View[®] marketplace for PPAs

View[®] Originate works in tandem with your origination team, supplying additional off-takers beyond your current book of business. It is *free to sign up* for View[®] Originate, with a success fee at milestones (i.e., LOI, PPA, NTP).

- Use View[®] to determine the best configuration of your project to publish to the marketplace.
- Understand the financial outcomes for you and the off-taker's settlement from the beginning to ensure a more balanced contract.
- Find off-takers that match well to your project based on location, PPA price, target and guaranteed COD, and more.

A sample of off-takers ready for projects from View[®] Originate

	Total Load (MWh/year)		Total Load (MWh/year)
PJM		ERCOT	
• Defense	1,000,000	• Chemical manufacturer	400,000
• Internet services	53,000	• EPC	36,364
NYISO		ISO-NE	
• Major bank	600,000	• Large retailer	500,000
• Major supermarket	500,000	• Manufacturing	200,000
MISO		Southeast (non-ISO)	
• Major manufacturer	240,000	• Transportation	105,000
• Bioscience	180,000	• Manufacturing	80,000
CAISO		West (non-ISO)	
• Food production	106,000	• Hospitality	500,000
• Manufacturing	95,000	• Plywood supplier	85,000

View[®] Develop Siting

Support your growth targets by acquiring high-quality sites

View[®] Develop Siting supports your land acquisition and development teams. It is *free to sign up* for View[®] Develop Siting, with a success fee at milestones (i.e., Site Control, NTP).

- Use View[®] to acquire high-quality sites to feed the top of your early-stage development pipeline.
- Sites are analyzed using View[®] Develop, and users with a subscription to View[®] Develop can conduct additional advanced analyses on a site.
- Save time reaching site control with landowners who are educated on the process and whose site control agreements are pre-vetted.

Mockup for demonstration only. Subject to change.

Sites are pre-qualified in terms of

- solar resource
- topography
- grid interconnection
- wetlands
- flood zones
- commercial feasibility
- *and more!*
